

INTRODUCING

Comprehensive Application for Antimicrobial Elimination and Surface Protection

The safest and most comprehensive shopping cart disinfection solution available! Your preferred disinfecting agent can be used or ask us for our recommended solutions!

Touch-Free Shopping Cart Disinfection System

Simple! Easier and more effective than hand wiping!

 Nested Carts are 100% Sanitized on ALL Surfaces using our Patent Pending equipment that will disinfect up to 50 carts per minute!

 Powered Sanitizer Pump allows you to set up the SanziClean in ANY location! 12V Battery and Charger onboard for extended hours of use!

 Operating costs are less than you are currently spending, and engineered spray pattern provide optimal coverage and safety!

 ROI in less than six months! Safe for use in parking lots and store entrances.

Our new machine simplifies the task of DISINFECTING your shopping carts by allowing your Cart Attendant to simply push nested carts through the automatic spray system at the same time they are corraling your carts for reuse.

Solution Absorbing Floor Mats Included!
Automatically wicks water away allowing for continual use without exchanging mats
